---

Our Lead Roofing Foreman has 25 years experience in the roofing industry, most of which has been in the Council Bluffs area. Except in the cases of extreme demand, all of these trades are done by JHCI staff. In all cases quality control is managed by either Jared Horton or our Lead Roofing Foreman.

We can handle your project in a number of different ways. If it's an insurance job, we can work directly thru your insurance company and handle everything, making sure they pay for as much of the relevant damage as possible, or directly thru you by giving you a detailed estimate based on your specifications. One added benefit to using Jared Horton Construction is that in most cases you will receive free upgrades from your existing materials on your home. Most of the time you will get Lifetime shingles, seamless gutters and when the house is being sided your exterior doors and windows will can be weatherized upon request. If your job is not insurance related, you will receive a detailed estimate and information to educate you about the options for your home improvements.
